Jerusalem Model A.D. 66

- The world's largest indoor model of its kind, this 45 by 25 foot-long structure gives a stunning overview of what Jerusalem looked like at the height of its size and growth. Daily presentations tell the history of the city, from its beginnings as King David's capital city to its destruction by the Romans in A.D. 70. The Jerusalem Model A.D. 66 allows guests to see where Christ walked as He ministered inside the city, and where He traveled during His final hours leading up to His crucifixion on Calvary.

The Scriptorium

- The walk-through experience of The Scriptorium transports visitors to historical and geographical areas of the world where displayed biblical documents originated and gives guests a dramatic understanding of the history of the Bible, how it parallels the history of civilization, and the impact it has had upon the world.
 - Legna (Angel spelled backwards)
